Soft Skills: Critical Thinking, Problem-Solving, Leadership, Adaptability, Communication, Self-Motivation, Entrepreneurship.

## Education

### Degree

Google Data Analytics Professional Certificate

### Degree

Certificate of qualification in construction contracting

## Experience

### Financial Market Analyst & Instructor

Self-Employed / Online Platform (TikTok, etc.) | 2021 – Present  
Leading an educational trading platform with over 37,000 followers, demonstrating strong communication skills and the ability to convey complex information effectively.  
Applying advanced market analysis techniques (such as ICT, Deep Market analysis, and Footprint analysis) to predict trends and make trading decisions.  
Designing and delivering paid training courses to a large number of individuals, enhancing my training skills, curriculum design, and client relationship management.  
Constantly identifying the knowledge gap between academic curricula and the practical realities of trading, leading to continuous self-learning in data analysis.

### Wholesale & Distribution Manager

Self-Employed - Foodstuffs | Approx. 2 Years  
Managed the wholesale distribution of food products, requiring analysis of supply chain efficiency and distribution routes to maximize profitability.  
Analyzed sales data to identify demand patterns and market needs, and optimized inventory levels.  
Negotiated contracts with suppliers and retailers, demonstrating strong financial analysis and decision-making skills.

### Construction Project Manager

Self-Employed - Building & Public Works | Approx. 6 Years Experience  
Managing all phases of construction projects, including planning, human and material resource management, and financial control.  
Developing and implementing detailed work plans, ensuring compliance with quality standards and regulatory requirements (Class 1 Qualification Certificate).  
Maintaining strict control over project budgets and costs, requiring regular analysis of financial data to avoid overspending.
